Amaze Awards

Amaze Awards was started by Wendi & Justin Colebrissi. A mother and son team that is dedicated to making every event special through unique and custom awards and other metal craft items. We started Amaze to become the best custom awards company, and we work hard to achieve it. On every order we provide great service, quality, and wholesale pricing.

What separates us from other awards companies is that when you place an order with Amaze, the owners are directly involved in making sure you're taken care of. We focus on the details, and believe that it is exactly this extra care that makes us stand out.

We actually started out ordering these products for our own events in 2004. After some years of dealing with lackluster service, inconsistent quality, and increasing prices, we decided that we could do it better.

Fast forward to 2009, Justin moved to S.E. Asia and got into industrial production of plastic and metal products. During his time there he played on an international men's soccer team where the plan really began to take shape.

Then in 2014 our journey started with some simple products at a couple events, and continued to blossom in Asia as we refined our process and improved both our technical understanding and abilities.

Years later, we now proudly supply a range of high-quality awards and other products that meet the requirements of both big and small organizations alike. That said, every customer is our most important, and we strive to deliver the same attention and detail to everyone. Plus, and to our customer's delight, we pass on the savings on every order thanks to a lower overhead cost.

Our range of products includes custom medals, pins, badges, coins, magnets, keychains, plaques, lanyards, and other products like trophies, apparel, bags, balls, dominos, and much more. Amaze proudly supplies for companies, associations, non-profits, sports events, schools, distributors all over the U.S.A.

As we said above, we strive to be the best awards company. We promise you the same when you give us the opportunity to fulfill your next requirements.
